CUSTOMER SUCCESS STORY

Pratapkaran Paul & Co.

Centralized IT Infrastructure for a Multi-Branch Audit Firm

INDUSTRY	Chartered accountants / audit
CAMPAIGN FIT	IT solutions for CA firms

THE BUSINESS CHALLENGE

The audit firm required centralized Tally and other applications, file services and secure access across Chennai, Bangalore and Trichy, while managing the complexity of distributed infrastructure.

AXIOM SOLUTION

- Implemented a Linux-based hypervisor with centrally hosted business applications and file-server services.
- Provided access to Tally, Winman and Internal Audit CRM services from the centralized environment.
- Established secure site-to-site VPN connectivity between Chennai and the Bangalore and Trichy branches.
- Implemented Fortinet perimeter security, managed VLAN switching and centralized antivirus management.
- Designed the centrally hosted Tally Gold multi-user arrangement to reduce unnecessary separate deployments, subject to applicable license terms.

IMPLEMENTATION & VALIDATION

- Project documentation describes the multi-branch topology, centralized services and VPN design.

BUSINESS OUTCOME

A shared application environment with secure multi-branch access, centralized administration and less need for independent application infrastructure at every office.

TECHNOLOGY STACK

Linux Virtualization | Fortinet | VPN | Tally | Winman | VLAN
